

## Make a real difference to another person.

Donate R200 a week to directly help a person in need. Every rand you give goes directly to the recipient, and we track how it is spent, so that you can see first-hand how effective it is.

[How it works](#)

### Sustain a family

Your entire donation amount is given to the family in the form of vouchers they can redeem at the local supermarket. Families need more than just food to thrive. We give people the ability to buy food, toiletries, airtime or electricity.

### For R200 per week

You can afford R200, right? Because, let's face it, that isn't an amount of money that will make a huge difference to your life. An you can't buy booze in the lockdown, so you've already save that money.

### With full transparency

We'll give you all the detail of how your money is spent. We collaborate with the supermarkets to account for every cent. And our system means that we don't need to spend any of your money on logistics.

## Here are some people who need your help.

### Wez

My name is Wez and this is my husband. I am pregnant with our first child. Since the lockdown we don't have any income, I am very worried about my baby.

## How it works.

### 1. We Find

We have agents on site in communities who identify suitable recipients and sign them up. Our agents vet the recipients to make sure that we give money to those who are in need and will use the money wisely.

### 2. We Help

Every week, each recipient receives a voucher by SMS message. They can spend this voucher at local retailers on whatever they most need, be it food, household items, hygiene or even airtime and electricity.

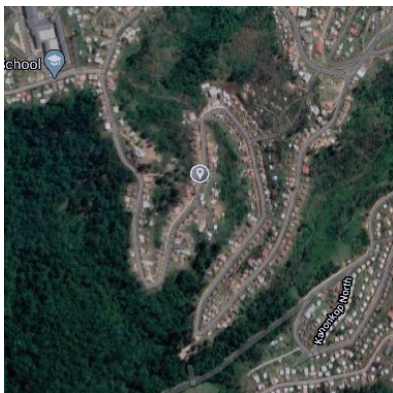

### 3. We Understand

Our retail partners give us all the detail of what each voucher was spent on, so that we can identify mis-use of the vouchers. We give you a full breakdown of what your donation was spent on.

## Safe and Anonymous

**To protect your privacy, your recipients don't ever know who you are.**

Our recipients receive their support via an SMS message containing a voucher. The voucher is completely traceable, which protect both our agent and recipients from being targeted by criminals.

## Fully Local

**We connect you to people in your immediate area, letting you create an impact in your own community.**

We hand-pick people to receive donations, based on a model that has been proven to work (direct monetary contributions to woman-led households). We focus on the families who are marginalised or excluded by the existing social grants and other welfare.

## Every Cent Accounted

**We use technology to distribute money efficiently, so that none of the the money you donate goes into logistics and your donation has the maximum impact.**

Our platform is completely transparent, so you can see exactly what every rand of your donation was spent on.

Help Somebody is a non-profit organisation dedicated to providing effective poverty alleviation.
